

CQP and CFP Coupling Made of Nylon

This high quality brand belongs to the product group "pressure blast systems". Only the perfect configuration and match of all system components in a blast machine enable maximum blasting efficiency. Therefore Clemco offers an extensive and complete range of quality products.

CQP and CFP Coupling Made of Nylon

Our nylon couplings are produced with high precision and therefore they are easier to mount. We are using only the best raw materials in our production and this guarantees a high lifetime even after long working days.
